

Federation of Family History Societies Services Limited

National Burial Index For England and Wales Third Edition Available from March 2010 Over 18 million burial records on CD

This Third Edition is expected to be even more popular than earlier editions. Entries have increased by more than 5 million to over 18.4 million burial records taken from Anglican parish; non-conformist; Quaker, Roman Catholic and cemetery **burial registers** throughout England and Wales.

Information includes (if found in the original record):

- Forename(s) and surnames
- date of burial (from 1538 – present day)
- age
- details of place where the event was recorded; pre-1832 county
- the recording society, group or individual

No Monumental Inscriptions or details of death registrations are included.

Now includes a superb updated version of the NBI Viewer program which has the facility to search on sensible, genealogically-relevant name variants. It incorporates those records previously published in earlier editions many of which have since been checked and corrected. Although many more parishes and date ranges are represented, clearly not all burials are included - nor will millions of these records be found on any website!

System Requirements: You'll need a PC running Windows 98 / XP / Vista / 7, with at least 2.8Gbytes of free disk space and a CD or DVD drive. The NBI is **NOT** suitable for Apple Mac users.
